

Engineered Douglas Fir Flooring

MADE IN BRITAIN®

WOODLAND FLOORS LTD

WOODLAND FLOORS LTD

Douglas Fir

Douglas Fir is a beautiful wood species which derives from the Pine family. The wood has very open grain due to its quick growth resulting in a very striking floor. Available in a choice of pre-finished options this product lends itself to larger open spaces and can be supplied in longer than average lengths.

WOODLAND FLOORS LTD

Specification:

Prime & Rustic A+ (mixed grade)
200mm & 260mm widths
15.5mm & 20.5mm thicknesses
Random lengths 1.7-2.45m – longer up to 4m available
Unfinished or prefinished.

Prime & Rustic A Mixed grade rules:

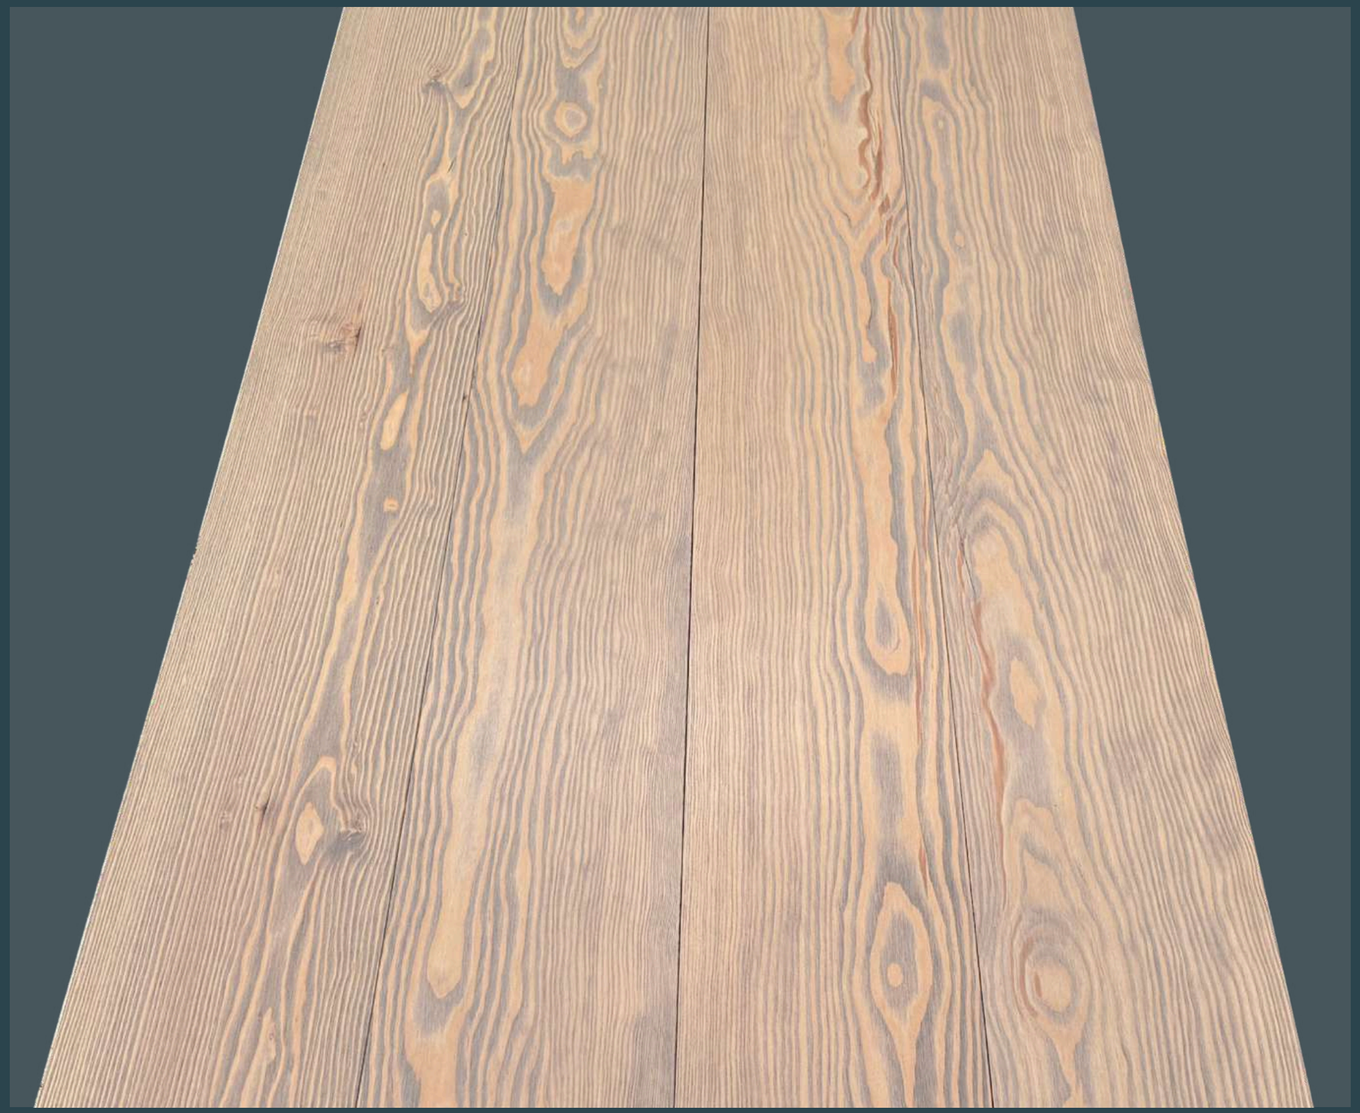

Many boards clear of knots and defects, some boards will have sound and cracked knots up to 35mm diameter and dead knot holes up to 20mm, Sapwood is not regarded as a defect for Douglas Fir.
